

Chehab MOSAAD

Engineering student in networks & security looking to contribute to impactful projects to make our world a better place

✉ Chehabmosaad13@gmail.com ☎ +33(0)659343823  [Chehab Mosaad](#)  [Chehab-Mosaad](#)

Passionate and curious learner who seeks new challenges and opportunities. Eager to apply my creativity and innovation. I am motivated to achieve personal and group growth in a collaborative and stimulant environment.

Experiences

- **Axway, Cloud Consultant Apprentice** Sep 2024 - Present
I participate in the implementation of API Management, as well as the deployment of MFT and EDI/B2B solutions and I contribute to the integration and deployment of solutions within clients' information systems, in a private cloud, on-premise or in the Axway cloud infrastructure (AWS).
- **Huawei, DevOps Engineer Assistant** Jun 2024 - Aug 2024
As part of a project to migrate a business management application to the cloud, I assisted in automating the deployment of resources using Terraform, Ansible, Kubernetes and Docker, while also implementing monitoring solutions.
- **Orange Business, Senior System and Network Administrator Assistant** Jun 2023 - Aug 2023
I completed an intensive learning phase covering cloud computing, cybersecurity, SDWAN and networking. Then, I participated in the management and configuration of servers, the optimization of network performance and the security of data exchanges.

Education

- **EFREI engineering school, University Paris Panthéon-Assas** Sep 2024 - Jun 2026
Masters in network and security part of apprenticeship program (major in cybersecurity and cloud)
- **UPSSITECH public engineering school (STRI)** Sep 2023 - Jun 2024
Computer Systems Networking and Telecommunications (Delegate of my class, ranked third)
- **University Paul Sabatier - Toulouse III** Sep 2021 - Jun 2023
Bachelor of Software Engineering

Projects

- Deployment of an Active Directory infrastructure for network management and data security.
- Implementation and management of a secure Linux environment, including VPN configuration and use of Openvswitch and lxd for virtual networks.

Languages

- English (Trilingual) ● French (Trilingual) ● Arabic (Trilingual) ● Spanish (Intermediate)

Skills

- **Programming languages** (Python, Java, C, O'Caml, SQL, PHP, HTML, CSS, UNIX Shell and Git bash)
- **Frameworks** (VS code, Eclipse, VirtualBox, Wireshark, Cisco PT, Github, Gitlab and Office Pack)
- **Theoretical knowledge** (Windows and Linux System Administration, Security of networks, Data Structures, Virtualization, Object-oriented Programming and Database Administration)
- **Soft skills** (Stress management, Time management, Passionate, Adaptable and Cooperative)

Organisations

- **BDE YOUNESSITECH, Vice-President** (In charge of the student life at YOUNESSITECH) Jan 2024 - Present
- **ADEEF, Partnership and Projects Team** (Teamwork and communication) Sep 2023 - Present

Interests

- Kodekloud ● Graphic Design ● Bodybuilding ● Chess
